

Mud Lance

The Mud Lance is a durable lance to loosen the soil, sand or mud surrounding a trapped animal/person during mud rescue. Using either water or air, the Mud Lance will overcome the suction from the mud, allowing the animal/person to be rescued quickly and safely with minimal distress.

When not in use the Mud Lance can be dismantled and packed away into the compact carry bag provided, making it easy to store and carry.

Optional equipment

- Regulator
- Delivery hose

**8 bar
Regulator**
(RE0034)

**10m Delivery
Hose**
(630002)

- **Exceptionally Robust and durable**
